

EVERPURE® ESO⁶ CARTRIDGE

UNIQUE THREE STAGE BLENDING CARTRIDGE PROVIDES SOFTENED/BUFFERED/FILTERED WATER

ESO⁶ Replacement Cartridge: EV9607-10

APPLICATIONS

Specialty Coffee
Espresso
Ice Tea

FEATURES • BENEFITS

Unique three stage blending cartridge provides softened/buffered/filtered water

Sanitary cartridge replacement is simple, quick and clean; internal filter parts are never exposed to handling or contamination

Reduces hardness in water that can cause minerals to buildup in coffee and espresso equipment

Utilizes ion exchange resin with buffering capabilities and high capacity coconut carbon filtration

Small amount of carbon filtered water bypasses softening resin to allow proper initial hardness

Buffering prevents water from becoming too acidic

Reduces minerals such as calcium and magnesium

Reduces chlorine, off tastes and odors

INSTALLATION TIPS

Choose a mounting location suitable to support the full weight of the system when operating.

Use 3/8" water line.

Install vertically with cartridge hanging down.

Allow 2-1/2" (6.35 cm) clearance below the cartridge for easy cartridge replacement.

Flush ESO⁶ Cartridge by running water through filter for five (5) minutes at full flow.

OPERATION TIPS

Change ESO⁶ Cartridge when its pre-calculated water volume has been reached or at least once per year.

Performance will be reduced if recommended service flow rate is exceeded.

Always flush the filter cartridge at time of installation and cartridge change.

SIZING

Service Flow Rate: Maximum 0.5 gpm (1.9 Lpm)

Rated Capacity:
4,100 grains (single configuration)*
8,200 grains (twin configuration)*
12,300 grains (triple configuration)*

Treatment Capacity: 470 gallons (1,780 L) @ 150 ppm

* Cartridge Grain Capacity divided by Grains Per Gallon in Influent Water = Total Product Water
